

2nd International Conference on

AI AND ROBOTICS

August 28-29, 2020 | Singapore

Theme: Exploring the Innovations and Excellence in Artificial Intelligence and Robotics

SESSIONS

Artificial Intelligence
Humanoid Robots
Machine Learning
Nano-robots
Data Science
Medical robotics
Speech Processing
Robotic locomotion
Block Chain
Cloud Robotics
Big Data Analytics
Power System Control
Mechatronics
Deep Learning
Swarm robotics
Neural Systems
Underwater robotics
Image processing
Agricultural Robot
Natural Language Processing
Aerial Robotics
AI Machine Learning in Health Care & Medical Science
Industrial Applications of Robotics

TENTATIVE PROGRAM

DAY 1

DAY 2

Planary Talk	Keynote
11.00 - Break1	11.00 - Break1
Keynote	Oral Sessions
13.00 - Lunch	Industrial Applications of Robotics
Oral Sessions	Robotic Process Automation
Artificial Intelligence	Natural Language Processing
Humanoid Robots	Underwater robotics
Machine Learning	Image processing
Nano-robots	13.00 - Lunch
Oral Medicine	Oral Sessions
Data Science	Neural Systems
Medical robotics	Artificial Neural Networks
Speech Processing	Ubiquitous Robotics
Robotic locomotion	Agricultural Robot
Block Chain	16.00 Break 2
AI Machine Learning in Health Care & Medical Science	Poster Presentations
	Power System Control
