TENTATIVE AGENDA

8:30-9:00	Registrations
9:00-9:30	Opening Ceremony
Keynote Session	
9:30-10:20	Title: The oncogenic mechanisms of fusion genes in human cancers
	Dr. Luo Juanha , University of Pittsburgh, USA
10:20-11:10	Title: Unusual Presentation of LCH as infertility and thyroid nodule in an adult male
	Dr. Chandan Kumar , Aiiims, Delhi
Refreshments and Networking Break : 11:10-11:30	
Sessions: Cancer Biology Cancer Metabolomics Cancer Therapy Neuro-oncology Stem-Cell Therapy Cancer Biomarker	
12:20-12:12:50	Title: Combining miRNA regulation and Sleeping Beauty System For Liver Cancer Treatment
	Dr. Yi-Chang Chu , National Tsing Hua University
12:50-13:20	Title : Effects of Pinostilbene Hydrate on human nasopharyngeal carcinoma migration through regulating matrix metalloproteinase-2 expression and MAPK pathway
	Chia-Chieh , National Tsing Hua University, Beijing
Lunch Break : 13:20-14:20	
14:20-14:50	PVA-microencapsulation: effective drug delivery system to inhibit epithelial to mesenchymal transition (EMT) in-vitro.
	Dr. Samrat Paul , Jadavpur University, India
14:50-15:20	Analgesics prescribing trends in emergency and out patients at SKMCH & RC – a cross sectional study
	Dr. Shahbaazkhan , Assistant manager, SKMCH, Pakistan
15:20-15:50	Title: Identification of microRNA expression in sentinel lymph nodes from patients with breast cancer via RNA sequencing for diagnostic accuracy
	Dr. Desheng Sun , University Shenzhen Hospital, China
15:50-16:10	Title : Chemosensitizing Effects of Marine Astaxanthin on the Anticancer Activity of Doxorubicin in Tumor-Bearing Mice
	Dr. Abdel-Moneim Osman , King Abdul-Aziz University, Jeddah, Saudi Arabia
Refreshments and Networking Break : 16:10-16:30	
16:30-17:00 - Panel Discussions
