

World Congress on

CARDIOLOGY AND CRITICAL CARE

July 25th-26th, 2019 | Singapore

Theme: Novel insights in Cardiology

TENTATIVE AGENDA

TENTATIVE AGENDA

Day 1 : 25th July 2019	
09:00-09:30	Registrations
09:30- 10:00	Opening Ceremony
10:00-10:30	Title: Cardiovascular Research Supported by the United States NHLBI/NIH Yunling Gao , National Institutes of Health, USA
10:30-11:00	Title:Coronary Flow Regulation and it's signaling by adenosine. S. Jamal Mustafa , West Virginia University, USA
Network & Refreshment Break : 11:00-11:15	
11:15-11:45	Title: How to become a “snuffboxer”: Data from the BAR-TAB Registry demonstrating the feasibility and safety of the distal transradial access via the anatomical snuffbox. Karsten Schenke , Asklepios Klinik Barmbek, Germany
11:45-12:15	Title: Success in Failure: New updates, New Insights and New Challenges Harleen Singh , Oregon state University, USA
12:15-12:45	Title: MR Imaging of Patients with Cardiac Implantable Electronic Devices (CIEDs): Implementing a Program and Optimizing CMR Avanti Gulhanay , University of Pennsylvania, USA
Lunch Break : 12:45-13:45	
13:45-14:15	Title: Identification of the genetic etiology of malignant arrhythmia in hypertrophic cardiomyopathy Dao Wu Wang , Huazhong University of Science and Technology, China
14:15-14:45	Title: Relationship between obesity and vascular disturbance : the study of HS-CRP on obesity individual D S. Lawrence , Hasanuddin University, Indonesia
14:45-15:15	Title:Inhibition of BRD4 attenuates transverse aortic constriction- and TGF-β-induced endothelial-mesenchymal transition and cardiac fibrosis. Shuai Song , Shanghai Jiao Tong University, China
Network & Refreshment Break : 15:15-15:30	
15:30-16:00	Title: Impact of Diabetes Mellitus on Myocardial Reperfusion and Left Ventricular Remodelling In Patients with Acute Myocardial Infarction Treated with Primary Coronary Intervention Mohamed Mousa Okda , The National Heart Institute, Egypt
16:00-16:30	Title:A cross sectional study of Industrial worker’s Diet in rela-tionship to Cardiovascular Health Naseer Ahmed , Bright Future college of Nursing and allied Health sciences, Pakistan
16:30-17:00	Speaker slots available*
Day 2 : 26th July, 2019 - Poster Presentations	
WCC-01	Title: Protective Role of N-Acetylcysteine on Isoprenaline-Induced My-ocrdial Injury: Histological, Immunohistochemical and Morpho-metric Study A. El Sadik , Qassim University, Saudi Arabia
WCC-02	Title: Prophylactic and Therapeutic Potential Effects of Melatonin Pre-treated Bone Marrow Mesenchymal Stem Cells against Cisplatin-Induced Cardiac Toxicity in Albino Rats A. Elzainy , Qassim University, Saudi Arabia
