

SINS 2019

July 25th-26th, 2019
Singapore

Advanced strategies to
strike out Neurological and
Psychiatry disorders.

TENTATIVE PROGRAM

PROGRAM CHAIR

A.K.Mukhopadhyay

North DMC Medical College

India

| Overview

Singapore International Neuroscience summit deals with study of basic and advanced researches and treatments in the fields of Alzheimer disease and Clinical Psychology. The SINS-2019 enables with credited technical and beneficial research advances in the clinical, diagnostic and physiological aspects of Neurological disorders". It is the premier event that brings together a unique and International mix of experts, researchers and medical practitioners both from academia and industry across the globe to exchange their knowledge, experience and research innovations in Neuroscience. We look forward to welcoming you to the beautiful city of Singapore.

The conference will be held at the Holiday Inn Atrium, Singapore's most sophisticated boutique venue with spectacular city views.

| Tracks

- Clinical Trials on Alzheimer's disease
- Psychiatric Syndromes
- Parkinson's disease
- Child Psychology and Child Care
- Cognitive Neuroscience
- Gender psychology
- Vascular Dementia
- Neuro-Ophthalmology
- Criminological psychology
- Schizophrenia
- Sexual Psychiatric Disorder
- Psychopathology
- Delusion and Personality disorder
- Dementia Care Practice
- Neuropharmacology
- Clinical neuroscience & Neurosurgery
- Neuro-oncology & genetics
- Biological psychology

Why SINS-2019

The International Congress on Clinical Psychology and Alzheimer diseases a unique platform for academic and industrial experts in the world and is the flagship annual event. Your participation in SINS-2019 will, amongst others, enable you to:

The SINS-2019 is an opportunity for health professionals in Neuroscience and Clinical Psychology disciplines to work together and advance our field.

The SINS-2019 is where some of the best exchanges take place. Join your colleagues and clients to discuss innovative research and form new partnerships for vascular and cardiac care.

The program is designed to provide a wide knowledge that will keep medical professionals alongside of the issues affecting the diagnosis, treatment of Neuro-disorders and prevention.

| Delegation

- Neurologists
- Psychologists
- Neuroscientists
- Academic Professors
- Neuro Specialists
- Researchers
- Psychiatrist
- Neurosurgeons
- Psychotherapists
- Pharmacists
- Clinicians
- Physicians
- Health care professionals
- Students
- Industrial Experts

TENTATIVE AGENDA

8:30-9:00	Registrations
9:00-9:30	Opening Ceremony
	Keynote Session
9:30-10:20	Title: Systems biology of Alzheimer's disease: Biophysics and computational modelling Don Kulasiri , Lincoln University, New Zealand
10:20-11:10	Title: math-physical medicine approach Gerald C Hsu , eclaireMD Foundation, USA
	Refreshments and Networking Break 11:10 - 11:30
11:30-12:20	Title: Systems psyche: The interface between matter and consciousness A. K. Mukhopadhyay , All India Institute of Medical Sciences, India
Sessions	Cognitive Neuroscience Neurodegenerative diseases Vascular Dementia Parkinson's disease Clinical neuroscience & Neurosurgery
12:20-12:50	Title: Adopting laughter therapy Suchi Deshpande , Singapore
12:50-13:20	Title:Neuroprotective effect of Hinokitiol on 6-OHDA induced oxidative stress in Danio rerio and SH-SY5Y cells by ameliorating neuroinflammatory markers Sumathi Thangarajan , University of Madras, India
	Lunch 13:20-14:20
14:20-14:50	Title: Late post partum eclampsia complicated with posterior reversible Encephalopathy syndrome Almira Uy , Cardinal Santos Medical Center, Philippines
14:50-15:20	Title: Ameliorating Oxaliplatin-induced peripheral sensory Neuropathy using Metformin in colorectal Cancer patients Osama Mohamed Ibrahim , Tanta University, Tanta, Egypt
15:20-15:50	Title: Methodological foundations of the non-material nature of the human psyche Mikhail Reshetnikov , St. Petersburg State University, Russia
15:50-16:10	Title: Management of the Type 3 Diabetics Mellitus Migraine, in-somnia sleep apnea and to prevent the neurological distroben-cies for foetus with the help of Dental Sleep Medicine Gouri Sankara Krishna Gattupalli , Govt Hospital Road, India
	Refreshments and Networking Break 16:10-16:30
16:30-16:50	Title: Pharmacological interventions targeting PI3K/AKT/GSK-3β pathway of insulin signaling in intracerebroventricular-streptozocin model of Alzheimer's disease Ansab Akhtar , Panjab University, India
16:50-17:20	Title: Strategy of Targeted Pharmacological Regulation of Intracellular Signal Transduction in Regenerative-Competent Cells - a New Di-rection of Therapy in Regenerative Medicine Gleb N. Zyuz`kov , Russian Academy of Sciences, Russia
17:20-18:00	Panel Discussions

Access Presentations

As a benefit of your registration, presentations are made available on the Larix ENT website.

No paper copies of the presentations will be provided.

NOTE: If a presentation is not available, the speaker either did not agree to publish it or did not provide us with their presentation. Updated versions of the slides will be made available shortly after the conference.

Certificate of Attendance

Please note certification requires full attendance to the conference. For more information please liaise with our ENT Contact Centre on neuroscience@larixconferences.com or call + 65 31 59 21 12.

Disclosure Policy

Unless otherwise disclosed, Larix acknowledges that the statements made by speakers are their own opinion and not necessarily that of the organization they represent, or that of the Larix. Speakers and agenda are subject to change without notice. Recording during sessions is strictly prohibited without prior written consent from Larix International.
